EXPERIENCE

Student Frontend Developer — Full Sail University's Fitness Technology Lab, FL

August 2025 - Present

Develops frontend components for the Echelon Connect Reflect Touch smart mirror using Kotlin and Compose.

Student Tour Guide — Full Sail University's Touring Department, FL

May 2024 - Present

Conducts daily campus tours for prospective students, showcasing university facilities and programs.

PROJECTS LIST

EasyCook — Recipe & Meal Planning Web App (React, TypeScript, Node.js, Spoonacular API)

- Developed a personal cooking assistant designed for recipe lookup, meal planning, and pantry tracking.
- Led frontend development and integrated backend to enable authentication and persistent user data.
- Utilized React for UI components and ExpressJS to connect Spoonacular API and database services.
- Refined UI/UX based on feedback by adding smoother transitions, animations, and improved layout flow.

ZeroLío — Sports Field Reservation Web App (React, TypeScript, Node.js)

- Designed a platform enabling users to locate, reserve, and comment on sports fields in their area.
- Built reservation mechanic and authentication features to ensure secure and seamless user interactions.
- Implemented interactive maps using React/TypeScript and Node.js for routing and data management.
- Enhanced map usability with the addition of custom map marker previews based on peer feedback.

Piggy — Budgeting & Expense Tracking App (React Native, TypeScript, Expo, SQLite)

- Built a mobile budgeting app to track expenses and visualize financial habits with interactive charts.
- Developed core features that include visual progress bars, pie charts, and intuitive spending insights.
- Used React Native with Expo for cross-platform UI development, integrating SQLite for local storage.
- Improved design after feedback by restyling colors and typography to enhance usability and user experience.

EDUCATION

Full Sail University, Winter Park, FL
Bachelor of Science in Computer Science (B.S.)

September 2023 - December 2025

Current GPA: 4.0

Awarded Women in Tech full-tuition scholarship

Languages

- TypeScript
- JavaScript
- Kotlin
- C++

SKILLS

Frameworks

- React
- Express
- Vite
- Expo

Tools

- Git
- Visual Studio
- Node.js
- Docker
